Professor Buchanan,

University of Toronto.

My dear Professor Buchanan:

Dr. Clarke, Dean of the Faculty of Medicine and Superintendent of the General Hospital, spoke to me about some difficulty that had arisen in connection with an application from your sister for a position on the hospital staff. It is a matter with which of course I have nothing to do, but Dr. Clarke knew that I know you well, and asked me to say to you that he would be glad to have you go to see him about the matter any time that you can conveniently do so.

With kind regards, I am,

Yours sincerely,

President.
